Dear leaders of Europe!

Please stop Merkel!

Please stop the hegemon Germany!

Save us from another German leader!

Please keep our wonderful Europe as it is.

Please keep our European identity, coined by christianity and humanity.

Please help poor Germany to get rid of crazy Angela. Her CDU will be grateful.

Please dismiss Juncker and Schulz with their unreal idea of forcing your countries to include masses of moslems. Why should our Europe pay for the madness of the islamic world and the sins of the USA and Israel?

Please send all young male „refugees“, cheekily invading foreign countries, immediately back to their chaotic, backward and barbaric islamic world in order to fight there for freedom and democracy of their countries and to restore their high culture of medieval times.

Please accept only women and children and old and ill people as refugees and only for the time of war in their countries and only with proven origin and threat.

Please relieve Europe from the unbelievable shame of begging Kurds slaughtering Erdoğan for help.

Please replace the dreamers and duffers Merkel, Juncker and Schulz by more competent persons. How long should we listen to these ignorants. An impeachment is needed.

Please send all European armies to Syria and wipe out the IS within tree weeks.

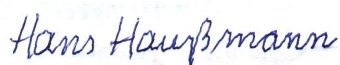

If possible, find a Jeanne d'Arc in your country, give her a horse and send her to Brussels. This might help. Stop selfcastrating pacifism in Europe.

Dear President François Holland, remember Tours and Poitiers and Karl Martell.

Dear Prime Minister Beata Szydło, remember the moslems at Vienna and the rescue by your king Sobieski.

Leaders of Europe, save Europe! Don't sell our soul to the concerns and billionaires!

Best regards

Hans Haussmann
